SUMMARY

Full Stack Developer with hands-on experience building scalable web applications, secure REST APIs, and database-driven systems through academic and personal projects. Skilled in backend development, API integration, and developing reliable software products.

TECHNICAL SKILLS

Languages : C++, Python, Java, JavaScript
Frontend : React.js, Next.js, HTML, CSS, Tailwind CSS, Framer Motion
Backend : Node.js, Express.js, REST APIs, JWT, WebSockets
Databases : MongoDB, MySQL, PostgreSQL
Tools : Git, GitHub, Postman, Bruno, MongoDB Compass, VS Code, Render, Netlify, Vercel

PROJECTS

Tara – Event Management System | *Full-Stack Developer*

- Built a MERN platform serving 1,350+ users with event registration, scheduling, exams, marks, and dashboards.
- Implemented QR/GPS attendance, JWT authentication, RBAC, and optimized MongoDB queries.

Knovera – Enterprise Grounded RAG Studio | *Full-Stack Developer*

- Built an enterprise RAG platform using FastAPI and Next.js for grounded document intelligence.
- Engineered vector retrieval pipelines with evaluation metrics for Precision, Recall, and Groundedness.

Yexo – Real-Time Chat Application | *Developer*

- Developed a real-time web and mobile chat app using React.js, React Native, and WebSockets.
- Implemented secure messaging, responsive UI, and animated cross-platform experiences.

EDUCATION

Kalasalingam Academy of Research and Education 2024 – Present
B.Tech in Software Product Engineering Srivilliputhur, India

Balaji Junior College 2022 – 2024
Intermediate – MPC India

COURSES & ACHIEVEMENTS

Cloud Computing and Services – Microsoft

Fundamentals of Generative AI – Microsoft

Secured 2nd Place in a Campus-Level Technical Competition (2025)

EXTRA-CURRICULAR ACTIVITIES

Coding Blocks 2026 – Present
Web Developer Kalasalingam Academy of Research and Education

- Develop and maintain responsive web applications and digital platforms for the club.
- Collaborate with the team to develop and improve responsive, user-friendly web experiences.
